Organization Overview

Since its founding in 1994, the Indiana Golf Foundation has established itself as a national leader in junior golf. Initially through the Junior Golf Program, followed by our academic scholarships, and finally with the construction of the Gongaware Junior Golf Academy in 2001, the Foundation has become a role model for junior golf programs throughout the country.

When the Foundation was presented with the opportunity to add First Tee to our junior golf programs, it was too good to pass up and in 2013, we were pleased to announce the addition of First Tee-Indiana to our Foundation programs.

The Indiana Golf Foundation allows hundreds of Indiana youth an opportunity to experience the numerous benefits that come from playing the game of golf. All programs under the Foundation umbrella are funded through the generosity of golfers from throughout the state and minimal program fees to participants.

First Tee - Indiana is one of 150 chapters worldwide that are part of a global non-profit youth initiative. First Tee was created in 1997 by the World Golf Foundation to use golf and character education to provide young people of all ethnic and economic backgrounds an opportunity to develop life-enhancing values such as honesty, integrity and sportsmanship. By engaging youth in a combination of life skills, leadership and golf activities, they are exposed to positive traits that will help them become valuable assets to their community and eventually achieve success in life. First Tee's Life Skills & Golf Experience curriculum is the unique component that sets it apart from many other successful junior golf programs.
